

MUHAMMAD FAIZAN NAEEM

.Net Core MVC FullStack Developer

PROFILE

Experienced and dedicated web developer proficient in C# .NET Core MVC, Angular, JavaScript, DevExpress, SignalR, Azure DevOps, Bootstrap, jQuery, CSS, and HTML, with over 6 years of hands-on experience. I specialize in creating robust and scalable web applications that prioritize exceptional user experiences. I'm passionate about staying updated with the latest industry trends and technologies, with a keen interest in blockchain. As an IBM-certified developer, I'm committed to contributing to the production of high-quality software solutions and being a valuable team member. Known for strong problem-solving skills and a track record of delivering projects on time and to specification, I excel at collaborating with cross-functional teams, ensuring project efficiency and effectiveness. I'm actively seeking opportunities to leverage my expertise in dynamic and innovative environments, where I can contribute to the development of cutting-edge technology solutions.

WORK EXPERIENCE

.NET CORE FULL-STACK DEVELOPER Feb 2023 - Present

VENTURE RESEARCH Inc

As a Full Stack .NET Developer at VENTURE RESEARCH Inc, my primary responsibilities include leading end-to-end web application development using technologies such as C# .NET Core, Angular, and JavaScript. I design and manage databases, collaborate closely with cross-functional teams to gather project requirements, and employ Agile methodologies and Azure DevOps for streamlined project management. My role also entails troubleshooting and optimizing applications, ensuring high-quality software products. Staying updated with industry trends and mentoring junior developers will be essential, as I take ownership of projects from conception to delivery, all while adhering to security and compliance standards.

.NET BACKEND DEVELOPER JAN 2019 - JAN 2023

FNB TECHS

During my tenure at FNB TECH, I served as a .NET Backend Developer, where my primary focus was on developing and maintaining the server-side components of web applications. I played a pivotal role in designing and implementing scalable, efficient, and secure backend systems using C# and the .NET framework. Collaborating closely with front-end developers and architects, I contributed to creating seamless end-to-end solutions. My responsibilities encompassed optimizing database performance, ensuring data integrity, and integrating third-party APIs to enhance application functionality. My role at FNB TECH honed my skills in server-side development and provided valuable experience in delivering robust backend solutions for web applications.

FREELANCING JAN 2018 - DEC 2020

UPWORK, FIVER

Over a span of nearly two years, I embarked on a freelancing journey as a Full Stack .NET Developer on platforms such as Fiverr and Upwork. This experience allowed me to engage with a diverse clientele, taking on a wide range of projects that honed my skills in both front-end and back-end development. I specialized in crafting tailored solutions using C# .NET Core, Angular, and various web technologies to meet the unique needs of each client. This freelance experience not only expanded my technical expertise but also enhanced my ability to communicate effectively with clients, understand their requirements, and deliver high-quality solutions within stipulated timelines.
